

15 Steps through the Bible

Overview

Each stage of this Bible overview gives you a taste of an important part of the history of God's dealings with this world. We'll start with creation, and end up with the picture of the new creation we look forward to.

Each stage will have a brief explanation of the big idea, a verse or two that shows this big idea, and then some further verses of Scripture that give some more information about who God is and what he does (related to this part of the history of salvation). You might like to use the questions provided to help you reflect on what you read from the Bible.

Daily Readings

If you'd like to dig deeper into the Bible and read more about the themes we're uncovering, at the end of each study take a look through the Daily Readings. Each of these readings and questions follow the same theme from various angles throughout the Bible. These would usefully form a week's worth of devotions for you.

Our 15 Steps program can also be downloaded as a free smartphone App. Yes, we're going mobile digital for this series. If you have an iPhone or similar, just go to your App store and search for 'XV Bible' and download the App.
